

TELEXCA INC. Company Profile and Capabilities

About Our Company

- Telexca Inc. is a **small/minority** owned business with approximately 28 employees and has been in business for more than 25 years.
- It's Founder and President, Mr. Roberto Brand, has more than 45 years experience in the aircraft-aerospace industry specializing in material's science, manufacturing processes, and engineering.
- We are located at 13463 Nomwaket Rd. Apple Valley, California 92308.
- Our current customer base includes companies such as **Lockheed Martin, Hi Temp Insulation, Arrowhead Products, Crissair, Senior Aerospace, Robertsons Manufacturing** and more.

About Our Company- Continued

- **Our Mission** is to be recognized by our customers as their preferred supplier of our product class. Our Values are sustainable business practices, social responsibility, and equal opportunity within our organization. These are reinforced through ethics and workforce integrity throughout all business operations.
- **Our strategic direction** is to be a leading supplier of Fiberglass Reinforced Silicone, Rubber and Composite components for military and aerospace industries. We are committed to maintaining and increasing a high level of trust with our customers by increasing customer satisfaction through continuous Improvement strategies. As we continue our move to become an employee owned company, our focus is to empower and develop committed, enthusiastic and competent employees resulting in consistent on time delivery of quality products to current and prospective customers

What We Do

- We manufacture engineered aerospace components and accessories made out of various silicone compounds, fabric reinforced silicones, aluminized fabric reinforced silicones, polyimides, carbon fiber, phenolic and graphite materials. The materials we inventory, can handle temperature ranges from - 60° F to 650° F and have various property options such as chemical resistance, fire resistance, flexibility, rigidity and lightweight. We can also accommodate any thickness and geometric shape that is required.

**COUPLING COVER &
CONVOLUTED HOSE**

Products and Services

- Our rigid thermoset configurations meet high heat and strength applications and can be reinforced with procured metallics. We build most common sized components using low pressure vacuum-bagged laminates such as carbon fiber, phenolics, polyesters, epoxies, polyimides and most other vacuum bagged pre-preg laminates.
- Our flexible silicone and fiberglass reinforced product line is versatile and fully customizable with limitless applications.
- Our product line consists of but is not limited to components within ECS (Environmental Control Systems), ducting as well as APU (Auxiliary Power Units).

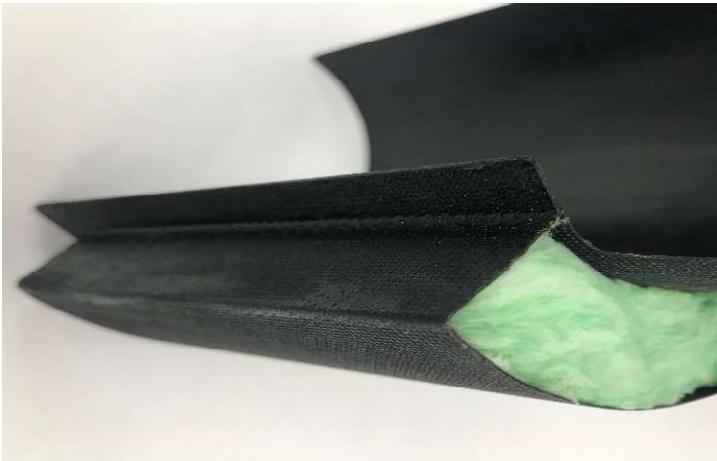

SILICONE RUBBER SEALS

BELLOWS COVERS

Products and Services- Continued

INSULATED POLYIMIDE DUCT

METALLIC INSULATED DUCT

- Examples include
 - Bellow covers
 - Latch covers
 - Expansion joints
 - Coupling covers
 - Boots
 - Insulation blankets
 - Ducting
 - Seals & Gaskets
 - Silencers
 - Mufflers
 - Insulation Ducts, etc..

Products and Services – Continued

Graphite Seal

Carbon Fiber Duct

Core Capabilities

- Engineered Specialty Components
- Polyimide/Composite Configurations
- Hi Temperature/Fiberglass Reinforced Silicone Parts
- Compression Molding
- Industrial Sewing
- First Article Inspections
- Materials Science
- Autoclavable Components
- Samples and R & D Services

Facilities and Equipment

- We have 30,000 square feet of manufacturing, storage and office space.
- 20 medium to large capacity ovens with temperature ranges from 250° F to 850° F.
- 11 hydraulic presses.
- 1 autoclave.
- 1 extrusion machine.
- A fully integrated and isolatable vacuum system with 2 back up pumps.
- 1 Eastman cutting machine.
- 2 Walk in refrigerators.
- 1 Walk in freezer -20° F.
- Scott tensile strength machine.

Important Information

- **CAGE CODE:** 078Y9
- **DUNS:** 019068012
- **NAICS CODES:** *336413,
326291
- **FEDERAL SUPPLY CODES:**
*1650, 1680, 1620
- **AS9100D CERTIFIED**
- **ISO 9001:2015 CERIFIED**

What Sets us Apart

- Customer Satisfaction-
 - **Customer service**- We work closely with engineers assisting in material selection as well as building samples and prototypes as quickly as the same day.
 - **Competitive Pricing**- Market research puts Telexca Inc substantially lower than our competitors pricing.
 - **Impeccable Quality**- Telexca maintains a product quality goal of $\geq 99\%$ pass yield.
 - **Short Lead Time**- Average reoccurring lead time ranges from 2-4 weeks depending on manufacturing factors. (complexity, materials availability, quantities)
 - **Expandability**- We are willing to expand our capabilities and enjoy working on new manufacturing concepts with our customers.
